FRIDAY JUNE 19, 2009, 7-9:30 PM

Film: "MONUMENTAL: DAVID BROWER'S FIGHT FOR WILD AMERICA" (88 min, Kelly Duane,

2004) **WITH THE SIERRA CLUB** From the moment David Brower first witnessed the extraordinary beauty of the Yosemite Valley, his life was tied to the fight to preserve the American wilds for future generations. Not since John Muir had an American fought so hard, or been more successful, in protecting our natural heritage. His fiery dedication and activism helped inspire the modern day environmental movement. Explored is the beautiful, dramatic, and lyrical story of Brower and his colleagues' unrelenting campaigns--fought through lobbying, art, and hard hitting advertising-to-protect and establish some of our most treasured national parks.

FRIDAY JUNE 26 2009, 7-9:30 PM

Film: "THE GREAT SQUEEZE" (67 min, Christophe Fauchere, 2009)

The film explores our current ecological and economic crisis stemming from our dependence on cheap and abundant energy. Although our actions for the past 150 years have lifted our civilization to new heights, it has come at a tremendous price. We are now at a point where humanity's demands for natural resources far exceed the earth's capacity to sustain us. The extraction and the consumption of these resources in the past two centuries have changed our climate and ecosystems so significantly, that a new geological era had to be created.

FRIDAY JULY 3, 2009, 7-9:30 PM

Film: "WE ALL FALL DOWN: THE AMERICAN MORTGAGE CRISIS" (To Be Confirmed)

(65 min, Gary Gasgarth and Kevin Stocklin, 2009) This timely and informative documentary chronicles the history of America's mortgage finance system, from its origins in the 1930s, when the federal government first made available long-term, fixed-rate loans to new American homeowners, to its current state of crisis, after an excess of risky mortgage financing led to the system's collapse, which in turn triggered a wider economic recession. WE ALL FALL DOWN features dozens of clearly understandable interviews and commentary from a wide variety of industry experts and Wall Street insiders, including mortgage brokers, appraisers, bankers, lawyers, analysts, sellers and buyers, and economics scholars. The film concludes with an analysis of the economic and political impact of the collapse of the mortgage finance system on American society, now and likely for decades to come.

FRIDAY JULY 10, 2009, 7-9:30 PM

Film: "REBUILDING HOPE" (SNEAK PEEK OF THIS SOON TO BE RELEASED DOCUMENTARY), WITH THE FILMMAKER: JEN MARLOWE! (78 min, Jen Marlowe, 2009)

Co-sponsored by the City of Seattle Office of Arts & Cultural Affairs.

REBUILDING HOPE, a great new documentary by filmmaker Jen Marlowe (*Darfur Diaries*), features Gabriel Bol Deng, Koor Garang and Garang Mayuol, who were born in South Sudan. In 1987, as young children, they were forced to flee when militiamen led violent attacks on their villages. They crossed Southern Sudan on foot, reaching safety in refugee camps in Ethiopia and Kenya. They came to the U.S. in 2001 as part of a large number of Southern Sudanese young men nicknamed "Lost Boys."

In 2007, Jen Marlowe accompanied these young men on their return to Sudan. The film documents Gabriel Bol, Koor, and Garang in their quest to find surviving family-members and rediscover and contribute to their homeland; it also sheds light on what the future holds for South Sudan in its struggle for peace, development and stability.

Please join us in a facilitated discussion on the current situation in Sudan with filmmaker, JEN MARLOWE.

(Event is FREE and open to the public! ...but Donations are kindly accepted).
